CITY OF MERCED

PROGRESS AT THE MERCED YOSEMITE REGIONAL AIRPORT

The new terminal at Merced Yosemite Regional Airport is taking shape, with the exterior showcasing modern designs and improved entryways for better passenger flow. Inside, the spacious lobby is coming together with high ceilings and plenty of natural light. Stay tuned for more updates as the project progresses.

BEAR CREEK PEDESTRIAN BRIDGE: CONSTRUCTION COMPLETE!

SAFE STREETS STREETLIGHT RETROFIT: UPGRADES BEGIN ON G STREET

Tennyson Electric crews have started replacing streetlights on G Street, south of Childs Avenue. This upgrade is part of the Safe Streets initiative to enhance visibility and safety for pedestrians and drivers. Stay tuned for more updates as the project progresses.

STEPHEN LEONARD BUILDING REHABILITATION: FIRE LINE TESTING UNDERWAY

Crews are currently testing the fire line at the Stephen Leonard Building as part of the ongoing rehabilitation project. This crucial step ensures the building's fire safety systems are fully functional and up to code. Stay tuned for further updates.

COMMUNITY PARK 42: SIDEWALKS AND LIGHTING INSTALLATION PROGRESS

At Community Park 42, the concrete crew poured sidewalks around the restrooms, while Dynamic Electrical dug holes and set light foundation posts. Additionally, a crew was onsite to complete a punch list for the restroom to ensure all finishing touches were completed. Stay tuned for more updates as the park takes shape.

WASTEWATER TREATMENT PLANT: INSTALLATION OF NEW STAINLESS STEEL PIPES

Crews have completed the installation of new stainless steel pipes into the wet well at the Wastewater Treatment Plant. This upgrade creates efficiency and longevity.
